Source: Eurostat, 2018

Social partners and government committed to addressing the increasing demand for the services and lack of staff by social dialogue and collective bargaining.

Social partners: Several trade unions and one cross-sectoral employers' organisation

**Trade unions**
- Union of United Workers (UHM)
- General Workers Union (GWU)
- Malta Union for Midwives and Nurses (MUMN)
- General Workers Union - Government and Public Entities Section

**Employers' organisation**
- Malta Employers’ Association (MEA)

MEA is a cross-sectoral organisation, counting four members in the healthcare sector, amongst them the largest private hospital.

European Social Dialogue: Involvement of social partners differ on European level

**Trade unions**
- Meetings with other members of EU level sectoral social partner organisations in the hospital and healthcare sector;
- Membership in the European Economic and Social Committee (EESC).

**Employers' organisation**
- Direct participation in the meetings of members of EU level social partner organisations.

European Semester: Social partners informed but not involved

**Trade unions**
- Regularly informed about reforms proposed within the European Semester procedure;
- Some are not involved at all and not interested in being involved.

**Employers' organisation**
- Occasionally informed about reforms proposed within the European Semester procedure.

Priorities for the EU level: Nursing profession needs improvement

**Trade unions**
- Collective bargaining;
- Private partnership;
- Employee rights in a healthcare setting;
- Burnout at work;
- Reconciliation of work and family.

**Employers' organisation**
- Posting of workers;
- Attractiveness of the sector for young workers

Rather satisfied with the opportunities to address the priorities to the EU level, but many expectations to the EU level partners:
- Support in domestic collective bargaining and make a stronger impact;
- Guide how to strengthen social dialogue

Further information

The fact sheet is the result of a survey dedicated to social dialogue with responses from GWU and MEA as well as desk research conducted in June – November 2019 and information provided at the Regional Workshop in Rome on 15 November 2019 within the joint project of HOSPEEM and EPSU. The answers of the survey are generalised, therefore, information might not apply to all organisations listed above. More detailed results on Malta are available in the Regional Workshop report. Southern Europe and the comprehensive comparative report of the targeted countries available online on HOSPEEM and EPSU websites.

This project has received financial support from the European Union
